

What Others Say

Kaylean Smith Referral Officer City Of Sydney Says:

You always feel important with Prime Alliance."Before joining Prime Alliance we had a house valued at \$590,000 and a personal debt of \$155,000 with the help of Prime Alliance we where able to secure our first investment property in Qld. Not long after Colin went back to study full time and I went on maternity leave to have our 2nd child. Through the assistance and budgeting help provided by Prime Alliance we were able to sustain our payments for about 11 months.

Now 7 years after our first investment we have just bought another 2 properties with the help and guidance of Prime Alliance. We have found the staff at Prime Alliance to always be very friendly and helpful. They are always there to answer questions, help restructure or review if our financial situation changes.

Having 2 young children it is hard to find time to run around organising solicitors, legal advice and real estate agents to try and organise the purchase of a property. Prime Alliance where great, they organsied everything from how much we could afford, travel plans to look at properties, appointments with the real estate, all the paperwork with the financial institution, solicitors and the legal side of the purchase right through to the settlement process."
